## FIRE IN THE QUAKER CITY

PHILADELPHIA SUFFERS A LOSS OF OVER \$1,500,000.

Several Large Business Houses Totally Destroyed and Many Others Damaged by Heat and Water—The Chicago Glass Company Suffers a \$30,000 Loss.

PHILADELPHIA, Jan. 25.—At 11 o'clock last night fire occurred in the extensive dress goods, millinery and trimming store of Marks Brothers, corner of Eighth and Arch streets. The store was a mass of flames before the fire engines arrived. A stiff southerly wind soon fanned the flames across Eighth street to the large millinery store of Adolph Heller, and up Eighth to Shoneman Brothers' extensive trimming and notion store. By this time it was evident that fully \$1,500,000 worth of property was doomed to destruction.

At 1 o'clock the following establishments had succumbed: Marks Brothers; Strouse, Tanhouser & Company, trimmings, No. 733 Arch street; W. H. Clark, agent for Butterick's patterns, No. 809 Arch street.

A large number of stores on the south side of Arch street were damaged by heat and flooded with water to such an extent that their losses will be quite heavy. Among them, were Isaac Hirschberg & Company, jewelers, corner Eighth and Arch; M. Pollock, embroideries, etc., in the second story, and Hornung's photograph gallery in the third floor of the same building; Frederick Knoppel, candy manufacturer, corner of Eighth and Arch, and S. Ables & Company, feathers, No. 806 Arch; L. Dannenbaum's Son & Elliott, silk and millinery, No. 808 Arch; William Mencke & Brother, dress trimmings, No. 804 Arch, and William H. Shuster, restaurant, No. 802 Arch and No. 36 North Eighth street; Adolph Heller, and Shoneman Brothers.

At 1:45 o'clock this morning the flames enveloped the boarding house of Mrs. Avant, No. 809 Arch street, and the building at 811 Arch street, occupied by the Hart Bicycle company and W. S. Fortescue & Company, publishers, and threatened their destruction. The buildings were flooded with water and the fire extinguished.

At 2:15 o'clock the fire was under control. The upper stories of the buildings, Nos. 809 and 811 Arch street, were in flames, but the firemen directed three or four heavy streams into the structures, and the fire was subdued. At the same time the firemen were directing their attention to the building, No. 731 Arch street, which was a big smoldering ruin, and it was feared that the front walls would fall, as they bulged at the second floor. The flames were finally subdued, and the fireman had overcome one of the largest and most destructive fires ever seen in this city.

A member of the firm of Marks Brothers was on the scene, and he claimed that their loss would be \$500,000. About one hundred and fifty persons were employed in the store. Heller's loss is roughly estimated at \$175,000. Shoneman Brothers' store and contents were said to be worth between \$50,000 and \$75,000. They employed seventy-five hands. Strouse, Tanhouser & Company estimate their loss at \$100,000 at least and the loss of F. & L. Baster is said to be about \$45,000. Other losses are heavy.

Joseph Hollick, assistant foreman of engine No. 17, was badly burned. In company with the members of engine No. 17, he went to the third floor of No. 809 Arch street, when an explosion occurred. The firemen were knocked down and Hollick was burned about the hands and face.

Another fire broke out at 10 o'clock last night in the operating room of the Postal & Bankers' Merchants' Telegraph company, in the fourth story of the building, at the northeast corner of Third and Chestnut streets. The forty operating tables and other office fixtures were wholly destroyed. The loss of the telegraph company is estimated at \$5,000, with no insurance. The building belongs to the Borer estate, and was damaged to the extent of about \$2,000. The loss by other occupants will amount to \$1,000. The fire originated behind the switchboard in the telegraph office, and was doubtless caused by a "grounded" wire.

Chicago Glass Company's Factory.

CHICAGO, Jan. 25.—The Chicago Glass company's factory, 4011 to 4023 Wentworth avenue, was damaged \$30,000 by fire last night. F. T. Jacques, president of the company, refused to give any information about insurance. Nearly one hundred and forty men and boys were thrown out of employment by the fire.

WILL "BLINKY" DO IT?

A Pittsburg Man Says He Will Confess and Clear Robinson and Coughlin.

CLEVELAND, O., Jan. 25.—A Pittsburg man who is interested in saving the necks of Robinson and Coughlin, under sentence of death for their share in the rescue of McMunn and the murder of Detective Hurligan on a train, declares that before April 27, when "Blinky" Morgan is to be hanged, he will confess and clear Robinson and Coughlin.

The Pittsburg man says that the confession will be in effect that the men who shared with Morgan in the rescue were Pat Hanley, Billy Harrington, Bill Powers and Harry McMunn, the man rescued. It was not intended to rescue McMunn in Ravenna, but all plans were made to free him in Allegheny. The gang was to be in a Federal street saloon and as the officers were on the way to the depot with McMunn, the gang was to rush out, overpower the officers and rescue the prisoner.

At the last moment this was given up and Ravenna selected, numerous lakes and swamps surrounding it affording an excellent opportunity for escape. The furs the gang had stolen were shipped from Allegheny to Liverpool, via New York, and Hanley and Harrington went with them.

After a Desperado.

MONTGOMERY, Ala., Jan. 25.—James Barrows, the desperado who killed Neil Bray near here Sunday night, was run down and chased into a swamp by a posse of officers and citizens Monday night. He has not yet been captured, but is surrounded. During the chase he was wounded by shots from the officers. He fired four times at his pursuers, but without effect. Blood hounds have been sent for with which to hunt him.

## WASHINGTON NEWS.

How the Congressmen Voted in Seating Carlisle—Other Notes.

WASHINGTON, Jan. 25.—In seating Speaker Carlisle over the contest of Thoebe the quorum required consisted of 163 votes. There were seven Republicans who voted with 157 Democrats on the motion in favor of his confirmation.

Three Democrats did not vote on seeing that there was a quorum without them. They were: Foran, of Ohio; Cowles, of North Carolina, and Weaver, of Iowa, all of whom have labor proclivities.

The Republicans who voted to seat Carlisle were: Cannon, of Illinois; Cooper, of Ohio; Davenport, of New York; McKenna, of California; Post, of Illinois; Rowell, of Illinois, and Steele, of Indiana.

The Republicans who voted against him were: Juhu Baker, of Illinois; Brewer, of Michigan; Buchanan, of New Jersey; Chapple, of Indiana; Hovey, of Indiana; Kerr, of Iowa, and Laidlaw, of New York. The other Republicans refrained from voting in the hope of breaking a quorum.

## House.

WASHINGTON, Jan. 25.—The house committee on banking and currency agreed to report favorably the Anderson resolution requesting the secretary of the treasury to inform the house whether the full amount of United States notes authorized by the law of 1878 was in circulation at that date, or what amount had been lost or has been lost since; the present circulation, and what legislation is necessary to maintain the limit of circulation.

A petition from the Knights of Labor was received, protesting against the employment of steam printing in the bureau of engraving and printing. The commerce committee took up the consideration of the resolution to investigate the Reading strike. Mr. Brumm, of Pennsylvania, made a statement in the interest of the miners. An animated discussion took place. Members of the committee held that any attempt to investigate, as proposed, was unconstitutional and not within the province of congress, and if undertaken would be unproductive of results.

Finally Mr. Anderson, of Kansas, moved that Friday next at 11 o'clock be set for a vote on the resolution. Mr. Dunham, of Illinois, made the point that the hour of adjournment had arrived, and the committee arose without action.

Mr. Belmont, by request, presented a memorial signed by David Dudley Field, Mayor Hewitt, Andrew Carnegie and others, representing a meeting of citizens of New York, in favor of an arbitration treaty with Great Britain. The memorial, which is most elaborately drawn, gives a list of sixty instances of successful arbitration between 1818 and 1887, and traces in detail all the legislative enactments of the various governments on the question. Referred to the committee on foreign affairs.

WASHINGTON, Jan. 25.—In the senate this morning Mr. Hoar called up his resolution for a special committee to consider the report of the Pacific railway commission. A motion to refer the report to the committee on railroads was lost, and the resolution was adopted by a vote of 54 to 15.

## Death of the Portuguese Minister.

WASHINGTON, Jan. 25.—Viscount Dos Nogueiras, Portuguese minister, died here this morning of a complication of diseases. He was first accredited to this country in 1878.

## IT IS NOT DENIED.

Charges That E. L. Harper Makes Daily Deals in the Chicago Market.

COLUMBUS, O., Jan. 25.—The charge is made, and so far has not been denied by the Ohio penitentiary authorities, that E. L. Harper, the convicted vice president of the defunct Fidelity bank, in addition to the other usual privileges enjoyed by the distinguished prisoner in his alleged confinement, is engaged in operating a bucket shop in Cincinnati, and daily makes deals in the Chicago market. It is alleged that so successful has Harper been in some of his dealings that he has turned several thousand dollars within the last two weeks.

It is almost incredible that such a condition of affairs should be allowed to exist in this institution, yet the unheard of privileges so far allowed Harper lend an air of certainty to the matter that otherwise would not emerge from the vision of improbability. He has plenty of time and numerous opportunities to carry on the business of dealing in the Chicago market, and no doubt, is making use of the excellent business talent that he is universally credited with.

## Father and Son Asphyxiated.

NEWARK, O., Jan. 25.—A telegram from San Diego, Cal., to Mrs. Wing, wife of Hon. Lucius B. Wing, of this city, conveyed the sad news that her brother, Mr. F. L. Mayhew, aged about sixty-five years, and his son, George C. Mayhew, aged twenty-eight years, had been found dead in their room in the hotel at that place, having been asphyxiated by escaping gas, supposedly from a stove. No further particulars were given. Mr. Mayhew left Milwaukee, Wis., about one month ago for Pasadena, taking his wife and son along, and located there, and it is supposed he was in San Diego on a business trip. They had visited here at divers times, and are remembered by a number of citizens. Mrs. Wing's friends sympathize with her in this affliction.

## Postoffice Robbed.

HAMMONDSVILLE, O., Jan. 25.—The post-office was entered by a burglar and \$78 taken. Attempts at breaking into this place had before been made and a watch was kept on it. The man who got the money was seen, and the United States deputy marshal, who was shadowing the office, put Frank H. Snyder under arrest, charging him with the crime. When arrested Snyder was walking down the track and had the money in his possession.

## Colonel Moulton Dead.

NEW YORK, Jan. 25.—Col. C. M. Moulton died at 3 a. m. at the Hotel Arno. At his bedside were Gen. W. T. Sherman and the members of his family. Col. Moulton leaves a wife and four children. The oldest daughter, Minnie, is the wife of Harry R. Probasco, an attorney of Cincinnati. Col. Moulton has been a sufferer from kidney troubles for over a year. The disease became complicated with congestion of the brain.

## ANGRY CONSERVATIVES.

THEY DENOUNCE THE ARREST OF MR. COX AS AN OUTRAGE.

Mr. Balfour Likely to Be Censured at the Opening of Parliament as the Coercion Act Gives No Right to Arrest in London for Its Violation—Foreign.

LONDON, Jan. 25.—A good many Conservatives condemn the action of the government in stretching the jurisdiction of the crimes act or any part thereof to operate in England, and denounce the arrest of Mr. Cox in London as an outrage.

Although these gentlemen believe in the efficacy of coercion as a means of bringing order out of chaos in Ireland, they are not disposed to lend themselves to any high handed proceeding which the law does not distinctly sanction, and it is more than likely that Mr. Balfour will be compelled to face censure at the hands of his friends, as well as the denunciation of the Parnellites at the opening of parliament. The Liberals, too, are of the opinion that Mr. Gladstone will take the earliest opportunity to open the vials of his wrath upon the perpetrators of yesterday's outrage, and all agree that Mr. Balfour could scarcely have rendered his enemies greater assistance and furnished them with more and more powerful campaign ammunition than he has done had he carried out a deliberate intention to play into their hands.

There is not a single clause, line or word in the coercion act that by the broadest interpretation, could be construed as giving the executors of that law a suspicion of right to arrest a man in London for its violation, and Mr. Balfour's act can only be regarded as the venomous work of a narrow-minded and cruelly vindictive coward, who regards himself as safe from retaliatory measures behind the bulwark of the government.

No attempt has yet been made to arrest Mr. Dillon, and possibly, in view of the widespread indignation among Tories that Mr. Cox's arrest has aroused, none will be made; but Mr. Balfour is unquestionably determined, not so much to vindicate the law, as to punish those who have in public speeches in Ireland expressed uncompromising opinions of himself, and it is hard to say where he will stop, unless he should be sat upon by his colleagues who cannot fail to see that his blind vindictiveness is doing more harm to the government than to its enemies.

## The Protection Wave.

LONDON, Jan. 25.—Mr. J. G. Shaw-Lefever, in a speech before the Bradford chamber of commerce, said the protection wave which recently passed over Europe had not yet spent its force. The movement, he said, was coincident with and dependent upon the increase of military feeling, which represented an exaggerated notion of nationality, and he expected soon to see various conflicts between the powers.

## Russia Needs More Fortifications.

WARSAW, Jan. 25.—Gen. Gourko, president of the war council, declared that 20,000,000 roubles were needed to complete fortifications on the Russian frontier and build needed bridges, roads and railways. He said an offensive war in Russian Poland was impossible at present, but that defense is possible if all railways and stores are destroyed.

## Ismail Pasha's Cash.

CAIRO, Jan. 25.—Ismail Pasha's claims have been settled. By the terms of the settlement he receives the Egyptian palaces that formerly belonged to him, property in Stambul valued at \$200,000, the commutation of his civil allowances at fourteen years' purchase and £100,000 in cash for crops.

## The Samoans Where They Want Them.

MELBOURNE, Jan. 25.—Dispatches from Samoa state that the Germans are enforcing taxes there and that a German judge will arrive in a few days at Apia. A German protectorate is probable.

## No Political Significance.

LONDON, Jan. 25.—Lord Randolph Churchill has arrived here. In an interview he emphatically denied that his journey to Russia political significance whatever.

## Foreign Notes.

M. De Lesseps says he will secure means in France to finish the Panama canal.

The Marquis of Butte has presented an \$80,000 chapel to the Catholics of Rothesay.

The Egyptian government has settled the claims of ex-Khedive Ismail Pasha by paying him several millions of dollars.

Dr. Mackenzie, it is said, will go to San Remo next week to remove a dead cartilage from the crown prince's larynx.

President Carnot, of France, will hereafter admit only card bearers to soirees at the Elysee, a large number of black sheep having heretofore obtruded.

Russian legation at Bucharest has severed diplomatic relations with the Roumanians, owing to the recent causeless arrest of a member of the legation.

Lord Randolph Churchill, of London, recently at St. Petersburg, says that the respectable Russians are peacefully inclined. He is not very apprehensive of war.

The Berlin bundestag yesterday considered estimates of the military bill. The Nachrichten asserts that the amount required to carry out the provisions of the bill will probably exceed \$30,000,000 marks, which sum, it was at first supposed, would be sufficient. The statement is made by some officials that the bill will involve an expenditure of 243,000,000 marks.

## Saloonkeepers Heavily Fined.

WATERLOO, Iowa, Jan. 25.—Judge Kinne imposed fines aggregating \$5,050 on nine Benton county saloonkeepers Saturday at Vinton. It is expected that by this action Judge Kinne will lose much strength among the German Republicans who helped elect him, a Democrat, in a Republican district.

## Benefit for Anarchists' Families.

NEW YORK, Jan. 25.—The Anarchists of this city gave a concert at Cooper Union hall last night for the benefit of the families of the executed Chicago Anarchists. The receipts were about \$250.

## Wants Damages for the Lost Raft.

NEW YORK, Jan. 25.—J. D. Leary has libeled the steamer Miranda for \$44,000 damages for the loss of the great timber raft.

## SWIFT IS SLOW.

The Hopkins Case Must Go On Without Him—Some Tell-Tale Letters.

CINCINNATI, O., Jan. 25.—Everybody was in a good humor this morning. Even Mr. Hoyt, who has grown weary relating so often details of the famous deal, smiled and chatted pleasantly with two or three members of the jury.

Mr. Bateman said he had some eight or ten more witnesses to call. The trial would, he thought, conclude this week.

The defense has been making every endeavor to secure Swift's attendance as a witness. Swift, on account of failing health, went to Florida last December. It was understood that he would return to the city when telegraphed for, but efforts to get him here thus far have been fruitless. It is probable his testimony in the Harper trial will be accepted in this case.

Bruce continued Hoyt's cross-examination.

"Whom did you mean in your letters to Irwin, Green & Company by the letter 'B'?"

"Irwin, Green & Company knew only the account as 'B.' I knew it meant Mr. Harper."

The government desired to show by reading letters from Hoyt to Irwin, Green & Company, that Hopkins was actively in the wheat deal. After a wrangle the letters were admitted.

Mr. Hoyt was asked whether on the 23d of February he did not know that 6,000,000 bushels of wheat were carried?

"Only by hearsay."

Witness was handed a letter.

"Refreshing your memory, can you state whether on May 27 you carried 11,500,000 bushels of wheat through Mr. Hopkins?"

"No, sir."

"Did you not know on May 31 that C. J. Kershaw was carrying a large amount of cash wheat?"

"I did, but did not know for whom."

The government was going on in this line of examination with the letters, when Bateman objected.

The court held that the government could not prove by their own witness that he had made contradictory statements.

"Did Mr. Hopkins tell you that he was interested in any other purchases of wheat except those that were conducted through you?"

"He stated that he was not."

Hoyt here delivered a lecture to his former friends of the jury on the meaning and mysteries of a corner. The students were all attention. Juror Ellis signified his acquaintance with the subject by nodding his head approvingly.

Judge Sage: "Mr. Hoyt, you went to Chicago at Mr. Hopkins' request June 14. Did Mr. Hopkins say anything to you about receiving a portion of the money that was to be there?"

"He did."

## Arrested for Forgery.

ST. THOMAS, Ont., Jan. 25.—Alfred Ridley, agent of the New York Mutual Life Insurance company, has been arrested for forgery. A note, dated July 11, 1887, for the sum of \$1,500, signed by Alfred E. Ridley and his wife, Norah S. Ridley, in favor of a Samuel Haight, of Sparta, and purporting to be endorsed by him, payable six months after date at the Merchants' bank, was presented by Ridley in July to Messrs. Crothers & Crothers, and the money advanced thereon. For six months no suspicions were aroused regarding the genuineness of Mr. Haight's signature. On Saturday, the 14th instant, the note fell due. Ridley asked a few days' grace, and on Monday presented a check for \$1,550 signed by Haight. Payment was refused at the bank, and after correspondence with Haight the forgery was discovered. When arrested Ridley had a vial of laudanum in his pocket and confessed that he meditated suicide. He has a wife and large family. The case was remanded until Friday next.

## Maxwell Hears the Decision.

ST. LOUIS, Jan. 25.—When the news of the refusal of the United States supreme court to interfere in the Maxwell case was imparted to the little chloroform murderer he became very pale and nervous, the more so because he had only a few minutes before heard a rumor, which had been started through a blunder of somebody, that the motion to dismiss the writ of error had been overruled, which would give him a hearing in the court. He tried to conceal his emotions, but it was evident that the bad news worried him a great deal. He refused to talk, except to say that he had felt certain of obtaining a hearing before the highest court of the land, and could not understand why it had been denied him. His lawyer says that he will now move for a rehearing before the state supreme court, and failing to get it, will go before Governor Moorhouse with a monster petition for a commutation of sentence.

## Contributions for Teachers.

LINCOLN, Neb., Jan. 25.—So much suffering and death has been reported among teachers and pupils in the state in the late storm that prominent people and papers have advocated public contributions to heroic teachers, and to aid those who have been crippled through losing limbs by freezing. To secure accurate data, the state superintendent has issued a circular calling upon all county superintendents to forward at once names of teachers and pupils in their locality who perished in the storms; those who have since died from effects of exposure, and the names of teachers who performed heroic actions in saving and attempting to save the lives of their pupils.

## National Merchant Tailors.

CINCINNATI, Jan. 25.—There were present at the opening of the second annual convention of the Merchant Tailors' National exchange at the Burnet house, this city, nearly one hundred and fifty representatives of that branch of trade from the following states: Ohio, New York, Pennsylvania, Massachusetts, Illinois, Missouri, Michigan, California, Georgia, Kentucky, Tennessee, West Virginia and the District of Columbia.

## Tax on Telegraph Poles and Wires.

PHILADELPHIA, Jan. 25.—The supreme court has affirmed the judgment of common pleas court No. 3 in the suit of the city against the Western Union and Mutual Union Telegraph companies to recover from those companies the annual license fee of \$1 for each one of their poles erected upon the public streets, and \$2.50 for every mile of suspended wire.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.  
ROSSER & McCARTHY,  
Proprietors.

RATES OF SUBSCRIPTION.  
THE DAILY BULLETIN will be delivered to  
any part of the city at 6 cents a week, or one  
year for \$3.

THE DAILY BULLETIN to any postoffice in  
the United States, postage prepaid, at twenty-  
five cents per month or three dollars per year.

WEDNESDAY EVEN'G, JAN. 25, 1888.

The assessed valuation of property  
in Boyle County this year is \$6,797,417,  
about \$80,000 more than it was last year.

GENERAL JOHN W. FINNELL, a well-  
known Kentuckian who is ill at Helena,  
Montana, was reported sinking fast Mon-  
day, and his physician says he can not  
possibly live much longer.

So far this month the Government  
receipts amount to \$23,749,059 and the  
expenditures to \$10,456,316. And Con-  
gress has not yet done anything to reduce  
the revenues. The surplus is growing  
every day.

Says the Manchester Signal: "There  
are rumors of a revival of the Ohio  
Valley railroad project. It is said the  
Pennsylvania Central has taken the affair  
in charge and will continue the road from  
Portsmouth to Cincinnati, on the north  
bank of the river, at an early day."

The new Revenue law brought to light  
in 1887 about \$90,000,000 worth of prop-  
erty that had escaped taxation for years,  
and the assessment now being made will  
undoubtedly show an increase over the  
last figures. Almost every county re-  
ported so far makes a better showing  
than in 1887. In Clark County the in-  
crease is \$277,068, the grand total amount-  
ing to \$7,293,422.

KENTUCKIANS who are running out  
West investigating their surplus wealth  
might do better with it closer at home.  
Here is a pointer: Mason, Hodge & Co.,  
of Frankfort, have contracted to make a  
tunnel 3,500 feet long through Cumber-  
land Gap, for \$250,000, to be finished in  
eighteen months—work to begin this  
week. They have also contracted to build  
nine miles of the Knoxville railroad  
south of the Gap. The South Atlantic  
and Ohio road which is being pushed  
from Bristol, Tenn., to Big Stone Gap,  
further up on the Kentucky and Virginia  
line, will be completed to Estillville, Va.,  
in two months. There is expected a big  
boom at both of these gaps in the open-  
ing of spring, and it is bound to come in  
a few years.

Stock and Crops.

Van B. Smoot, of Shelby County, re-  
alized \$2,200 off of seven acres of tobacco.

It is expected that a larger crop of  
tobacco will be raised in Fayette County  
this year than ever before.

R. D. Chinn, of Mayslick precinct, has  
sold his tobacco to Thomas Best at \$20  
all round—in keeping order.

J. E. Bramel, of Bourbon County, got  
\$3,326 for 123 acres of tobacco he raised  
last season. He sold at 17 cents.

The rumor that E. M. Newman, of Mt.  
Olivet, offered W. J. Reese \$140 an  
acre for the Caldwell farm is not correct.

Robert Chain living near Mayslick has  
sold his tobacco to Mr. Brown, of Mt.  
Olivet, at 15 cents. Mr. Chain's son  
sold to same party at 15½ cents.

Peter Anderson, of North Middletown,  
has purchased in the last fifteen days,  
126,205 pounds of tobacco, for which he  
was offered \$2,500 profit.—Paris Ken-  
tuckian.

S. P. Dentley, of Tollesboro, sold ten  
head of cattle in Cincinnati a few days  
ago for the eastern market that averaged  
1,670 pounds. They were of his own  
raising, and show that big cattle can be  
raised in the "State of Lewis" as well as  
anywhere else.

J. A. McKee & Son, of Cynthiana, are  
said to have a young peach orchard of  
five hundred acres at King's Mountains,  
Ky., containing 25,000 trees, which they  
expect to bear this year. Trains on the  
Cincinnati Southern will be loaded with  
the fruit on the farm and it will be land-  
ed in Cincinnati the same day it is gath-  
ered.

In the Circuit Court at Lexington, a  
jury gave Mrs. Maria Lavin \$100 damages  
against the street railway company. She  
wanted the company to give her \$25,000  
for injuries received in jumping off a  
runaway car some months ago.

The Poor Little Ones.

We often see children with red eruptions  
on face and hands, rough, scaly  
skin, and often sores of the head. These  
things indicate a depraved condition of  
the blood. In the growing period, chil-  
dren have need of pure blood by which  
to build up strong and healthy bodies.  
If Dr. Pierce's "Golden Medical Discov-  
ery" is given, the blood is purged of its  
bad elements, and the child's develop-  
ment will be healthy, and as it should be.  
Scrofulous affections, rickets, fever-  
sore, hip-joint disease or other grave  
maladies and suffering are sure to result  
from neglect and lack of proper attention  
to such cases.

THE CANARY.

A day in June, of light, of fragrance rare,  
A bride brought to a home, a bride as fair  
As angels be, as sometimes women are.  
Loud sings the blithe canary in its cage.

A day in June again; what greater bliss  
On earth may be, mayhap in heaven, than this,  
Falls faint on a baby's face, a mother's kiss.  
Loud sings the blithe canary in its cage.

A woman, fair and young and pale, at rest,  
A dead babe laid on the dead mother's breast,  
A preacher murmuring: "All is for the best."  
Loud sings the blithe canary in its cage.

A Louisiana Sugar Plantation.

A sugar plantation is divided by main  
ditches and roads into sections known in  
some parishes as "cuts," in others as "strips"  
and in still others as "blocks." These have  
names familiar to all the people on the place.  
At Magnolia they talk of the "Polly Garden  
strip," the "Molly Shanty strip," the "North  
Front strip," the "Big Oak strip," etc. Each  
of these sections is subdivided by small  
ditches into fields containing an average of  
about twenty-five acres. Every well man-  
aged plantation is carefully mapped, and the  
planter, running his eye over the map in his  
office, will tell you just what fields are in  
plant cane, in stubble cane or in cow peas.  
He plans his operations on his map as a gen-  
eral does a campaign. It is a stirring, fasci-  
nating business, which keeps a man on the  
alert, mentally and physically, and develops  
the most intelligent type of the country gen-  
tleman to be found in the south.

The cane cutting season begins the 1st of  
October. It would be advantageous to wait  
longer, for the canes are constantly sweeten-  
ing their juices, but there is danger that the  
crop may not all be harvested before the  
frosts come. In Cuba, where there is no  
frost, the planter can continue to cut and  
grind until the new sap begins to flow in the  
stalks. Not infrequently it happens that a  
Louisiana planter raises more cane than he  
can work up in his mill before the cold  
weather of January sets in. The next year  
he reduces his acreage. The amount of land  
he can cultivate must depend on the capacity  
of his mill.—E. V. Smalley in The Century.

Street Car Statistics.

Few people who use the Broadway horse  
railroad ever stop to consider the large num-  
ber of men, horses and cars which the road  
must employ and the number of passengers  
carried by these cars.

In a conversation with one of the officers of  
the road the following interesting facts were  
learned: The stables of the road contain 2,100  
horses, and for each of them two sets of harness  
must be provided. The average street  
car horse is short lived, three or four years'  
work generally using him up. There are,  
of course, horses that have proved them-  
selves capable of twice that length of service,  
but they are exceptions. One of these old  
stagers, if the word is not a misnomer, died  
last year at the age of 29. The 215 cars of the  
company make 1,075 trips a day and carry on  
an average 59,550 passengers. During the last  
year the report shows that the largest number  
of passengers carried during one month was  
in October, the number being 2,017,136. Feb-  
ruary is the dulllest month in the year for the  
horse railroads. The Broadway road during  
that month carried only 1,480,063 passengers.

The Firm Signed the Scale.

PITTSBURG, Pa., Jan. 25.—The conference  
yesterday between Carnegie, Phipps & Com-  
pany, of Homestead, and the Amalgamated  
association resulted in a satisfactory under-  
standing, the firm signing the scale as pre-  
sented. The action of the committee was  
ratified by the different lodges last night and  
work resumed in all departments this morn-  
ing, giving employment to nearly seven hun-  
dred men.

Coasted Under the Ice.

YORK, Pa., Jan. 25.—A lad named Willie  
J. Haack, aged thirteen years, while coast-  
ing down an embankment of the Codorus  
creek, in this city yesterday evening, ran  
into a large opening in the ice and immedi-  
ately disappeared. His body was subse-  
quently found about twenty-five yards down  
the current of the stream. The coroner's  
jury held an inquest and the verdict ren-  
dered were in accordance with the facts  
stated.

Reducing Passenger Rates.

BALTIMORE, Md., Jan. 25.—Benjamin  
with January 25, the rate for thousand-mile tick-  
ets on the Baltimore & Ohio lines west of the  
Ohio river will be reduced from \$25 to \$20.  
The rates east of the Ohio have always been  
\$20. The thousand-mile tickets which have  
been, or may be sold east of the Ohio, will  
hereafter be honored on the Baltimore &  
Ohio lines west of the Ohio, and vice  
versa.

Took Prussic Acid.

NEW YORK, Jan. 25.—Dr. George S. Meigs,  
a prominent dentist of No. 242 West Thirty-  
fourth street, a cousin of Quartermaster  
General Meigs, U. S. A., committed suicide  
by taking prussic acid. His nerves had been  
unsettled of late, and he had taken great  
interest in the "Mind Cure," or "Christian  
Science" doctrine. He leaves a widow.

One Hundred Railroaders Discharged.

MARION, Ind., Jan. 25.—The Official ax  
of the Toledo, St. Louis & Kansas City railway  
fell yesterday morning, and about one hun-  
dred employes between Toledo and St. Louis  
were notified that their services had been dis-  
pensated with. The road recently passed into  
the control of President Calloway, and the  
reduction is said to be part of his plan to  
prevent the property going into the hands of  
a receiver.

Undertaker Holmes Gets \$5,000 Damages.  
SARATOGA, Jan. 25.—The jury in the  
Holmes vs. New York Times case, this morn-  
ing brought in a verdict for the plaintiff of  
\$5,000. Holmes is the Saratoga undertaker  
who embalmed Gen. Grant's body and sued  
the Times for libel for saying that he was  
drunk at the time of the funeral.

Chicago Wants a Statue of Garfield.

CHICAGO, Jan. 25.—The West park com-  
missioners yesterday discussed a plan for the  
erection of a statue of the late President  
Garfield in Garfield park. Henry B. Gibbs,  
of the American White Bronze company,  
tendered a plan for a Garfield statue to cost  
not less than \$4,000.

Still Another.

PATERSON, N. J., Jan. 25.—A coasting sled  
on West hill ran into a sleigh last night and  
all the eight young men and women on the  
sled were badly cut and bruised. All will  
recover.

PITTSBURG, Jan. 25.—Edward Coffey, the  
murderer, died at 6:15 this morning from  
wounds inflicted by himself last Wednesday.

Editor Maysville Daily Bulletin—During  
a recent stay in your enterprising little  
city, I had some cabinet photos taken at  
Mr. Kackley's gallery and, as an artist, I  
take much pleasure in saying that the  
pictures that I received to-day reflect  
much credit on Mr. Kackley, the style  
and finish being most excellent.

John Thompson's Fate.

[Bidams.]  
John Thompson belonged to the engineer  
corps. He walked, and he walked, 'till his feet were  
corps. He came to a cabin and he knocked on the  
doors. The folks let him in and he fell on the floor. They  
looked at his feet—they were wet with  
corps. They tried in vain his life to restore; But  
Thompson went out with a roars. And the places that  
knew him, shall know him no more—  
Quoth the raven, "never morps."

TOBACCO MARKET.

Furnished by Glover & Durrett, proprietors  
Louisiana Tobacco Warehouse.  
Sales on our market for the week just closed  
amounted to 2,483 hhds., with receipts of 1,709  
hhds. for the same period. Sales on our mar-  
ket since January 1st amount to 7,267 hhds.  
The last few days have witnessed some irregu-  
larity in prices on burley tobacco and this  
applies to both the old and the new crop. The  
depression is supposed to be temporary as  
there is no apparent reason for a weakening  
price. The recent cold weather has cut off  
the receipts of the new crop.

ROYAL CHURN POWER.

To the Citizens of Maysville:  
We the undersigned ladies of Maysville have  
thoroughly tested in our homes the  
ROYAL CHURN POWER of W. R. Warder,  
Court street, Maysville, Ky., have this to say  
in its favor:

As to its mechanism, it is perfect in all its  
appliances; it is more easily operated than  
any churn power we have seen.  
It is cleanly in all respects.  
It will make more butter out of less cream  
than any churn we ever used.  
It will make butter in less time and with  
less trouble than any churn we ever saw.  
Its price is very reasonable.

As a matter of economy and a labor-sav-  
ing machine to the housewife, we consider it  
a good investment, a treasure in any house  
who make their own butter, and we cor-  
dially recommend it to all such.

Cheerfully yours,  
MRS. J. T. STRODE,  
MRS. JAMES H. HALL, SR.,  
MRS. JOHN H. HALL,  
MRS. MARY L. RICKETTS.

No ARRESTS have yet been made for the robbery of Cook & Adams' store at Mt. Carmel some days ago. Detectives are at work on the case, however, and the guilty party or parties may be in the clutches of the law before long. In addition to the \$325 belonging to the firm, it is said that \$175 placed in the safe by Dr. Proctor was also taken.

Pointed Paragraphs About the Bills Passed or Now Pending at Frankfort.

The following bill was introduced by Mr. Needham, of Grant County.

Be it enacted by the General Assembly: That section 2, article 1, chapter 52, of the General Statutes be made to read as follows:

SECTION 1. Marriage is prohibited and declared void with an idiot, lunatic, paralytic, pauper, vagrant, tramp, drunkard, gambler, rake, felon, feeble-minded person, or any person rendered physically helpless and unfit for the marriage relation by malformation, misfortune, accident, age, disease, or any vicious cause or habit of life, or any person having a violent or ungovernable temper, or any person who is at the time of applying for license to marry, or who has been within one year next preceding such application, either the keeper of or inmate or visitor to any house of prostitution, assignation, ill fame or bawdy house, or any person who having been once married has been divorced for any of the causes aforesaid.

SEC. 2. When at the time of marriage the male is under 18, or the female under 16 years of age.

Leave has been granted to bring in a bill to permit husband and wife to testify for and in behalf of one another and against one another in any civil or criminal proceeding.

Senator Cravens has introduced a bill to amend the laws governing the penitentiary, and to provide for the profitable employment of convicts. It is stipulated that when the Commissioners of the Sinking Fund shall lease the labor of the convicts within the prison walls, they shall reserve the right to withdraw as many as 400 short-term prisoners, to be used by the State to assist in building railroads in conjunction with companies. Said company or companies shall be required to execute bond to pay the expenses of the convicts while so employed. After the road is built and the expenses deducted the State is permitted to own an interest in the railway to the extent of the value of the labor. This interest is to be exempt from any debt of the railway corporation. There is also a clause providing for the control and sale of the State's interests.

**A SUDDEN DEATH.**

A Post-Mortem Examination Shows that Congestion of the Brain Was the Cause.

George Swasie, colored, died very suddenly yesterday about noon, at the home of his friend John White. White lives in the Fifth ward in a house belonging to Mr. W. W. Lynch.

Swasie was about eighteen years of age, single, and had been making his home with white for some time. The deceased had been suffering from pneumonia for several days, but had not been confined to his bed all the time. At a late hour yesterday morning he descended from the loft of the building, and took a seat near the fire. Shortly afterwards he fell over and expired in a few minutes.

A few hours before he expired, Swasie had vomited considerably, and expressed a belief that he had been poisoned. In view of all the circumstances, Magistrate Vicroy was called in to hold an inquest. The investigation was not completed last evening. Last night the body was removed to Means' undertaking establishment, where a post-mortem examination was made by Dr. Phillips, assisted by Dr. McNutt, who found that congestion of the brain, resulting from pneumonia, was the cause of death.

Swasie had been working as a deck-hand on the river, and it is said he was struck on the head with a bar of iron by a fellow workman in a quarrel two or three weeks ago. A report was started that death had resulted from the effects of this blow, but the post-mortem examination shows that he died from natural causes.

Swasie's parents live at Germantown.

**Mr. Gompers' Speech.**

The speech of Mr. Samuel Gompers at the court house last night was listened to by a large crowd, the seating capacity of the room being almost entirely taken up. Messrs. William Cole and M. F. Kehoe, prominent members of the C. M. I. U., presided over the meeting. The members of the Union occupied front seats, and were attentive listeners to the speaker's remarks.

Mr. Gompers is a representative of the American Federation of Labor. He is an earnest speaker, rather slow and deliberate, but an interesting talker, and held the attention of his audience throughout. The burden of his argument was for a closer and better organization of the workmen.

**Of Interest to Common School Pupils.**

On Wednesday, February 1st, 1888, there will be held in the Public Library, in this city, an examination of the pupils of the public schools of Mason County who may wish to procure certificates of graduation under the school laws of Kentucky. The Court of Appeals has recently ruled that "if from any cause those in charge of a railroad train can not see stock on the track until so near them that they can not by the use of proper care prevent a collision, the company should not be held liable for the killing of the stock."

The select school near Fern Leaf, under the management of Miss Rina Savage, will be continued four months from January 30th. A competent assistant will be employed if necessary. Patronage solicited.

## THE MINERS' STATEMENT.

### THEY PREPARE AN ANSWER TO MR. CORBIN'S LETTER.

What They Want is a Basis of Wages to Be Advanced in Proportion to the Advance in Coal—Pottsville Collieries Said to Be Preparing to Resume Work.

POTTSVILLE, Pa., Jan. 25.—The miners' joint committee prepared an answer yesterday to President Corbin's statement. The document recites the history of the agreement between the miners and the company and says that it was accepted by all parties concerned, as it could not be expected that any person or committee of average intelligence would enter into an agreement with the receivers binding on the men that would not be binding on the company, and this was the view taken of the matter by both sides, when the memorandum was under consideration.

The miners' reply continues: "Mr. Corbin's statement that during these four months the miners were paid in addition to basis wages the sum of \$341,906 is good evidence that for ten years back the miners have been paid at least that amount less for every four months that they were entitled to receive. Whatever Mr. Corbin's information may be as to the reason why the miners refused to continue work after the 1st of January, we have only to say that the miners quit work because the company refused the advance asked for, and would not agree to arrange a meeting with the committee for the purpose of agreeing to arbitrate the question, as was done in September last. The miners have no desire to drive the company out of the competition market nor to compel it to resort to any business policy unfair to its patrons or consumers."

The committee says that it is an open question whether or not the Schuylkill miners receive as much for their labor as miners in other localities, and says also: "What the miners desire is not so much after all a simple advance in wages as it is to establish living basis wages for all kinds of work to be subsequently equitably advanced in proportion to the advance in the price of coal."

#### Collieries Resuming Work.

POTTSVILLE, Pa., Jan. 25.—Rumors prevail here to-day that a number of collieries are getting ready to start in. The company's officials claim that they are cutting coal in five of their collieries. These are the Brookside, Lincoln, Henry Clay, Suffolk and Keystone. About one hundred cars of anthracite have been turned out in addition to the amount used by the company. The labor leaders claim that these collieries are either not at work or shipping no coal. The Keystone is only running through a little coal for the men.

At Pine Grove some forty-five miners at the Brookside colliery went to work this morning, and it is probable that more will follow.

#### Strikers Returning to Work.

NEWARK, N. J., Jan. 25.—Thirty-three girls and two men, who were among the striking employees of Clark's thread mills, returned to work this morning. All the strikers who applied for work were taken back without question and sent to their former places in the card and frame rooms. About one hundred and fifty of the strikers have not yet applied for work, but the probability is that all will soon do so. The company state they have no intention of reducing wages.

#### The Breaker Boys Determined.

SHEKANDAH, Pa., Jan. 25.—There is not a sign of any of the collieries running around here or at Ashland. The situation is practically unchanged. No attempts will be made to start up the individual collieries. Both sides are determined to stand out, and the ranks of the miners are unbroken. The breaker boys, who are very necessary adjuncts, are more determined to stand out than ever, and as long as young America holds out the breakers cannot resume.

#### Preparing to Resume.

ASHLAND, Pa., Jan. 25.—The outside foreman of the North Ashland colliery claims he will resume operations at that colliery to-morrow. It is said on good authority that a meeting of the Amalgamated association will be held in Pottsville to-morrow to consider the advisability of cutting loose from the railroads' strike.

#### Smallpox Appears at Detroit.

DETROIT, Mich., Jan. 25.—A few days ago William Johnson, a young colored boy, who had recently arrived from Buxton, Ont., was found by the authorities to be suffering from a mild case of smallpox and was removed to the pest house. To-day another case was discovered, the victim being a young lady from the south, but whose name and address the health officer refuses to divulge. She was also taken to the pest house. Her case is regarded as much worse than that of Johnson, and the spread of the contagion is feared.

#### Express Train Wrecked.

SOUTH RALSTON, Vt., Jan. 25.—As the Boston & Montreal express, due here at 2:30 p. m., was nearing the station, the rear car broke from the train on account of a broken switch rod, left the track and rolled over an embankment fifteen feet, landing bottom side up. The train was running with considerable speed and the air brakes failed to work. Seven passengers were aboard the car, two of them sustaining slight injuries—F. H. Churchill, of Lebanon, and a man from Buffalo.

#### Both Legs Cut Off.

CHICAGO, Jan. 25.—At the Meagher street crossing of the Chicago, Burlington & Quincy railroad yesterday afternoon Mrs. Catherine Hogan, a lady fifty-seven years old, living at 121 Barber street, was struck by an engine and both her legs cut off. She died two hours later at the county hospital.

#### Fought About Five Cents.

MOUNT STERLING, Ky., Jan. 25.—Jim Lawson and John Jonett, negroes, stable hands, quarreled and fought over five cents. Lawson broke Jonett's head with a pitch fork, and Jonett cut Lawson with a knife, inflicting a serious wound in the breast.

#### Canada Will Investigate.

KINGSTON, Ont., Jan. 25.—The attention of the Dominion government will be called to the lynching of John C. Wells, a Canadian, at Bad Axe, Mich. Wells killed a neighbor in a quarrel about a ditch and the neighbor's friends lynched Wells.

#### Death of Frederick C. Brightly.

PHILADELPHIA, Jan. 25.—At 12:42 o'clock this afternoon, Frederick C. Brightly, the author of Brightly's Digest and other notable law books, died at his residence in this city, at the age of seventy-six years.

#### Dissensions at Yale.

NEW HAVEN, Conn., Jan. 25.—The board of editors elected by Yale's junior academics to edit the Yale Literary Magazine for 1888, was rejected by the retiring board. The juniors re-elected it. The senior board again refused to accept the result, and will exercise their arbitrary right to name their own successors. The dissension causes considerable bad feeling.
